

## NetProbe 2000

Multi-service test set for operators installing and troubleshooting GE, C37.94, T1-T3, G.703, Datacom, WiFi, IPTV, and VoIP.

## EZtouch VDSL2

Ideal tool for ILECs, CLECs, and sub-contractors, who are responsible for installing, verifying, and troubleshooting VDSL2 and ADSL1/2/2+ circuits and Copper loops.

## ParaScope 10GE-3

Handheld 1G-10G Ethernet, Fibre Channel, VoIP & IPTV tester. Supports Packet Capture & Decode, Packet Flooding and Performance Measurements.

## EZtouch ADSL2+

Ideal tool for ILECs, CLECs, and sub-contractors, who are responsible for installing, verifying, and troubleshooting ADSL1/2/2+ circuits and Copper loops.

## EZtouch GigE+

Ideal tool for field engineers and technicians installing, maintaining, and troubleshooting Metro Carrier and Campus Ethernet networks. Supports both electrical and optical interfaces.

## GigE Reflector

Provides loopback functionality in a low-cost, handheld device. It's a smart loop device that swaps the source and destination addresses in MAC and IP headers.
