

FX300

OTDR, VFL, LS, Fiber Inspection probe, PON power meter.

RXT-1200

UDSL, OSA, SONET/SDH, OTN, Ethernet (up to 100G), Fibre Channel, CPRI/OBSAI, Datacom, CATV, C.37.94, OTDR, TDR/DMM.

TX300S

OTN, SONET/SDH, Ethernet, Fibre Channel, 1588v2/PTP, CPRI/OBSAI, OTDR, OPM, LS, VFL.

UX400

40G/100G, Dual 10G, Dual 16G FC, Dual 2.5G, Dual 1GE, OSA, CPRI / OBSAI. Plus new OTU4 for up to 600G traffic generation! Portable or rackmount.

MTTplus

Next generation of the legendary MTT. A compact, powerful, and cost-effective modular test toolkit for legacy and modern Access, FTTx, Metro, Carrier Ethernet and Transport technologies.

OPX-Box OTDR

An ultra-compact OTDR designed to operate with Fiberizer desktop PC, mobile or Cloud software. Controlled via USB or Bluetooth: up to 42 db Dynamic Range, OLS, VFL, MM and SM.

AT2500RQvPlus

Spectrum Analyzer, Analog & Digital Proof-of-Concept, QAM Analysis, CCN, CSO, CTB, ICR, DOM, Hum, Carrier Frequency.

CX350S

Industry's first integrated test solution supporting legacy analog CATV signals, high definition DVB-C carriers and DOCSIS 3.0 cable modem.

RealWORX

Performance Web Verification System, monitor return ingress levels, analog signal performance & stats from many nodes, alarm notifications.

AT1700/AT1600

RF Switching Solution for headend testing and return path monitoring.

CX380S-D3

1GHz Spectrum Analyzer, Forward & Return Path Digital QAM Analyzer, MPEG Analyzer, WiFi, Upstream Signal Generator, DOCSIS 3.0.

CX150-D3+

SLM, DOCSIS 3.0 Cable Modem, Return and Forward Path Ingress Scan, Upstream Signal Generator, Power Level of NTSC, PAL and SECAM video signals.
